

# MY Homework

## Lesson 1

### Draw Points, Lines, and Rays

## Homework Helper

Need help? [connectED.mcgraw-hill.com](http://connectED.mcgraw-hill.com)

Abbey is reading the instructions in her drawing book.

The instructions are to draw  $\overleftrightarrow{AB}$ ,  $\overrightarrow{EK}$ , and  $\overline{JT}$ .

What figures should she draw?

A line is a straight set of points that extend in opposite directions without ending. You can represent it as line  $AB$  or  $\overleftrightarrow{AB}$ .

A ray is a figure that has one endpoint and extends in one direction without ending. You can represent it as ray  $EK$  or  $\overrightarrow{EK}$ .

A line segment is a part of line between two endpoints. You can represent it as line segment  $JT$  or  $\overline{JT}$ .

## Practice

Identify each figure.

1.

\_\_\_\_\_

2.

\_\_\_\_\_

Draw each figure.

3.  $\overline{YB}$

4.  $\overrightarrow{LR}$

## Problem Solving

5. How many line segments are represented in this figure?

\_\_\_\_\_

How many points are represented in this figure?

\_\_\_\_\_

## Vocabulary Check

Choose the correct word(s) to complete each sentence.

endpoint   line   line segment   point   ray

6. A \_\_\_\_\_ is part of a line between two endpoints.

7. An exact location represented by a dot is a \_\_\_\_\_.

8. A \_\_\_\_\_ is a figure that extends in opposite directions without ending.

9. A ray has one \_\_\_\_\_.

10. A \_\_\_\_\_ extends in one direction without ending.

## Test Practice

11. Which is the correct way to represent the figure?

(A) ray  $WB$

(C)  $\overline{WB}$

(B) line segment  $WB$

(D)  $\overleftrightarrow{WB}$
